HP Photo-realistic Poster Paper

The HP large format printing system—the complete solution
HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, reliability, and consistency—with every print.

See photo paper quality—on recyclable poster paper

Deliver high-quality images, long-lasting prints
Produce vibrant, photo-realistic prints ideal for long-lasting displays on this paper-based alternative to more costly photo media. HP Photo-realistic Poster Paper is an ideal solution for a wide range of indoor graphic display applications.

Enjoy easy post-print processing—with the environment in mind
Smooth your workflow with this easy-to-use paper. A fast dry time facilitates post-print processing. Enable further productivity gains—HP Photo-realistic Poster Paper can be laminated, mounted, and processed conventionally. Meet the environmental objectives of your company—and your clients—with this FSC™-certified[1] paper.

See reliable results, consistent performance
Experience the reliable performance of the HP large format printing system. HP Photo-realistic Poster Paper is engineered with Generation 2 Original HP inks and the printer to deliver consistent image quality and excellent handling.

Target customers	Applications	Benefits
Print service providers	Trade show and event displays	Image-quality comparable to indoor photo papers
	POP and retail displays	6+ months indoor, in-window display permanence, unlaminated;[2] 150 years away from direct sun[3]
	Posters and photo enlargements	Fast dry time
	Banners	Easy post-print processing
		Water-resistant prints[4]
		FSC™-certified paper[1]
